PROFESSIONAL SUMMARY

Full Stack Developer with 2.5+ years of experience building scalable web applications, AI-powered SaaS products, browser extensions, and production-grade CRM systems. Specialized in developing Generative AI-integrated applications and integrating LLM-powered workflows into real-world products. Proficient in React.js, Next.js, FastAPI, Node.js, and PostgreSQL, with a proven track record of performance optimization, including reducing data scraping time by 75%. Experienced in building end-to-end products from scratch and delivering scalable, maintainable solutions in fast-paced startup environments.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3
Frontend:	React.js, Next.js, Astro, Redux, Tailwind CSS, Shadcn/UI
Backend:	Node.js, Express.js, FastAPI, NestJS, WebSockets, Socket.IO, REST API Design
Databases:	PostgreSQL, MongoDB, Prisma ORM, SQLAlchemy, Alembic
AI / LLM:	OpenAI API, Gemini API, Instructor, AI Pipeline Design, Prompt Engineering
DevOps & Cloud:	Docker, AWS (Cognito, EC2, S3), Railway, Git, GitHub Actions
Tools & Integrations:	Zoho CRM API, Zoho Billing, OAuth 2.0, JWT, RabbitMQ, Celery, Redis, Beautiful Soup
Methodologies:	Agile, Scrum, CI/CD, Microservices, RBAC, Session Management

PROFESSIONAL EXPERIENCE

Full Stack Developer | mindO — Remote

March 2024 – Present

- **LinkedIn AI Chrome Extension:** Developed a browser extension for LinkedIn using **React.js** and **FastAPI** backend integrated with **Gemini API** to scrape profiles and generate AI-powered outreach strategies, personality insights, and professional background analysis.
Performance Optimization: **Reduced profile scraping time by 75% (~40s → 7-10s)** by implementing asynchronous JavaScript scraping with parallel page processing.
- **Authentication & Billing:** Integrated **AWS Cognito** for secure user auth and **Zoho Billing** for subscription management (individual + enterprise plans).
- **Zoho CRM AI Integration:** Built an **LLM-powered analysis pipeline** using **Python**, **FastAPI**, **PostgreSQL**, **SQLAlchemy** to process lead records, enrich external business data, and auto-generate actionable sales intelligence reports (qualification signals, talking points, recommended approaches).
Scalable Async Processing: Designed **Celery + RabbitMQ + Redis** workflows to handle bulk AI analysis of thousands of CRM leads without blocking API requests, managing LLM rate limits efficiently.
CRM Synchronization: Integrated **Zoho CRM APIs** with **OAuth 2.0** to retrieve leads, process through AI pipelines, and sync enriched data back into CRM fields automatically.
- **Admin Console:** Built a **React.js** web console for account management, subscription upgrades, team collaboration, role-based access, and paginated analysis history dashboards.

- **Landing Page & SEO:** Developed the company landing page using **Astro** with static site generation, achieving high Lighthouse scores and strong SEO performance.

- **Hakura CRM (Client Project):** Architected and deployed a full-featured CRM in **2 weeks** using **ReactJS**, **NestJS**, **TypeScript**, **PostgreSQL**, **Prisma** with JWT auth, RBAC, lead tracking, sales reporting, revenue analytics, and an AI-powered news intelligence pipeline. Containerized with **Docker** and deployed on **Railway**.

MERN Stack Intern | U R Star Technologies — Dehradun

January 2024 – March 2024

- Contributed to a healthcare platform serving doctors and franchisees, building data visualization dashboards and scheduling modules.
- Developed a **Doctor Scheduling** module and **Franchisee Creation** portal using **React.js** and **Node.js**.
- Built interactive **country-wise and state-wise product sales dashboards** using **React-Map** and **GeoJSON** for geographic data visualization.
- Enhanced dashboard functionality with new features improving operational efficiency for healthcare administrators.

PROJECTS

CLIPLY — Note-Taking & Productivity App

Next.js | Tailwind CSS | Shadcn/UI | FastAPI | PostgreSQL | SQLAlchemy | Alembic

- Built a full-stack productivity application using **NextJS**, **FastAPI**, **PostgreSQL**, and **SQLAlchemy**, featuring rich-text note editing, file uploads, task management, and structure note organization.
- Developed RESTful APIs for notes, tasks and file management with authentication, data validation and persist storage.

DESTIFY — Hotel Booking Platform

Next.js | Tailwind CSS | Shadcn/UI | Radix UI | Prisma | MongoDB Atlas | NextAuth

- Built a full-stack hotel booking web app with advanced filtering, booking management, and hotel listings.
- Implemented **NextAuth** for secure authentication and **Prisma ORM** with **MongoDB Atlas** for type-safe database operations.
- Designed responsive UI with **Tailwind CSS**, **Shadcn/UI**, and **Radix UI** components.

BINGO-25 — Real-Time Multiplayer Game

React.js | WebSockets | Socket.IO | Node.js

- Developed a real-time multiplayer Bingo game with **Socket.IO** for live matchmaking and private room creation.
- Implemented auto-matchmaking with strangers and private room codes for casual cross-device gameplay.
- Built fully responsive UI optimized for mobile and desktop experiences.

EDUCATION

Bachelor of Computer Application (BCA)

Graphic Era Hill University (GEHU), Dehradun, Uttarakhand, India

2021 – 2024

Class 12th — 79% | Class 10th — 86%

2019 – 2021
